

JASON, JAMES STEPHEN M.

#5018, Purok 5 Bambang Bulakan, Bulacan | +63 949-142-1967 | jamesstephen.m.jason@gmail.com | linkedin.com/in/jamesjason5

EDUCATION

Bulacan State University (BULSU)

Graduated : June 8, 2026

Bachelor of Science in Computer Engineering

TJS Matungao, Bulakan, Bulacan, 3017

SUMMARY

Motivated Computer Engineering graduate with hands-on experience developing full-stack web applications using Java, Python, Flask, MySQL, Firebase, HTML, CSS, and JavaScript. Passionate about building scalable software solutions and seeking an entry-level IT Industry role to contribute and grow in a collaborative team.

WORK EXPERIENCE

OJT | Nexus IT Solution - Pasig, Metro Manila

June 2025 - July 2025

- Completed hands-on training in Cisco networking fundamentals, including basic network configuration and troubleshooting.
- Assisted in configuring and maintaining network devices, servers, and IT infrastructure under the guidance of senior engineers.
- Diagnosed and resolved hardware, software, and network connectivity issues, improving overall system reliability.

PROJECTS EXPERIENCE

Aegis of Cyberprotection Project

- Developed a hardware-enforced cybersecurity system using Python, Raspberry Pi, Linux, and machine learning for real-time threat detection.
- Integrated hardware, software, and network monitoring to detect malicious USB devices and unauthorized access.
- Applied system integration, debugging, testing, and cybersecurity best practices throughout development.

Full-Stack Coffee Shop Management System

- Developed a full-stack web application using Flask, HTML, CSS, TypeScript, and Firebase.
- Implemented RBAC, secure authentication, CRUD operations, and user management.
- Developed a rule-based conversational chatbot using keyword matching, decision logic, and automated response workflows for customer support.
- Applied REST APIs, OOP, database optimization, testing, and debugging.

Motor Parts Inventory Management System

- Developed a LAN-based Inventory Management System using Java, PHP, and MySQL for motor parts inventory and warehouse operations.
- Implemented role-based access control (Admin/Staff), secure authentication, and CRUD operations for products, suppliers, customers, and users.
- Designed an optimized MySQL relational database with inventory tracking, stock monitoring, purchase & sales management, and report generation.
- Applied Object-Oriented Programming (OOP), SQL optimization, data validation, system testing, and debugging to improve performance and reliability.

SKILLS

- Programming Languages:** Java, Python
- Web Technologies:** HTML, CSS, JavaScript
- Frameworks & Tools:** Flask, Git, GitHub, Visual Studio Code, XAMPP, Figma
- Database:** MySQL, Firebase, PHP
- Software Development:** Object-Oriented Programming (OOP), Authentication & Authorization, REST API Development
- Soft Skills:** Problem Solving, Communication, Team Collaboration, Adaptability, Time Management

CERTIFICATIONS

- Cisco CCNA Certification (2025) - Nexus Solution
- Industrial Cybersecurity Essentials (2025)
- Cyber Threat Management (2025)
- Python Essential (2026)
